

IN SITU

The bowl of ramen is an example of a space where chopsticks are usually used. At restaurants, such as ones that serve ramen or other traditionally east asian cuisines, most meals can be eaten with chopsticks. The chopsticks could either be place next to the bowl, resting on the rim on the bowls, or even in the bowl, in the soup.

IN A PUBLIC SPACE

The public space I envision my out-of-scale object to be is a large public swimming pool. I think it serves to take the chopsticks completely out of context, yet with a slight resemblance to its roots being used in places that often resemble bowls or pots of water, or some other liquid
